

Apêndice 3

Instalações relevantes

1. Tortoise SVN 1.4.1.7992

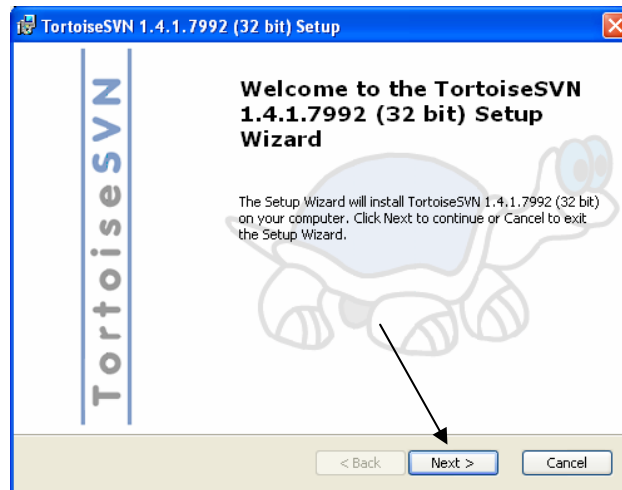

Figura 1.1 – Janela de boas-vindas

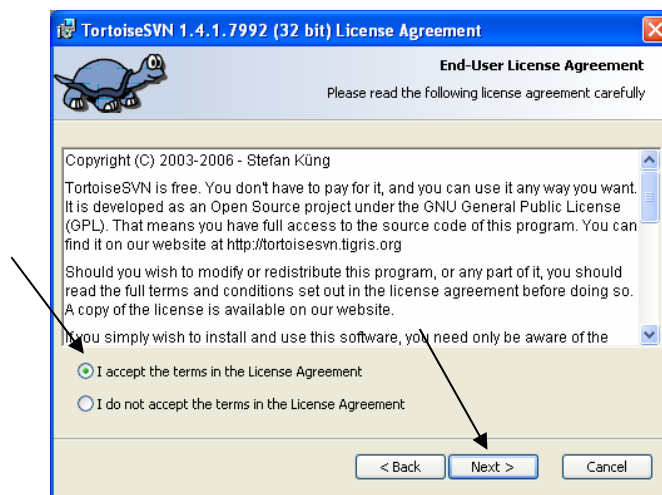

Figura 1.2 – Janela que permite aceitar o acordo de licença

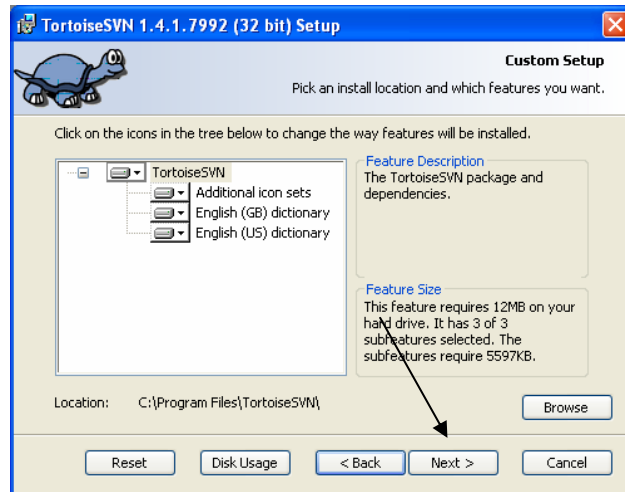

Figura 1.3 – Janela que permite personalizar a instalação

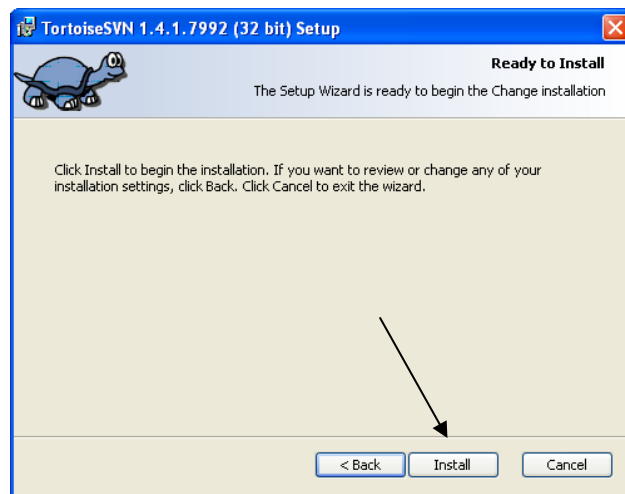

Figura 1.4 – Janela que permite iniciar a instalação

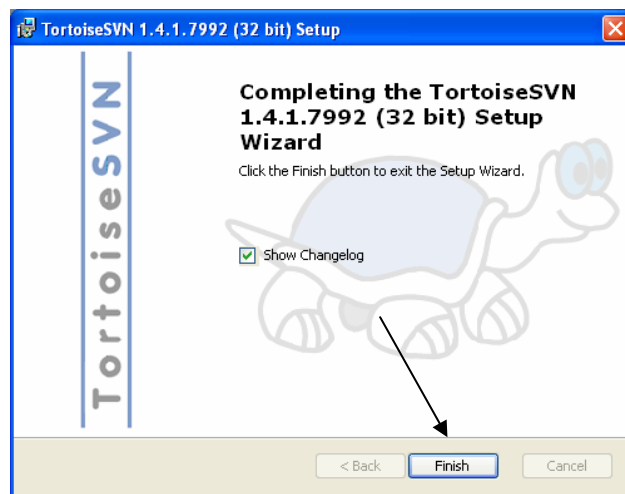

Figura 1.5 – Janela que permite terminar a instalação

2. Python 2.4.4

Figura 2.1 – Janela que permite instalar a aplicação para todos os utilizadores do computador

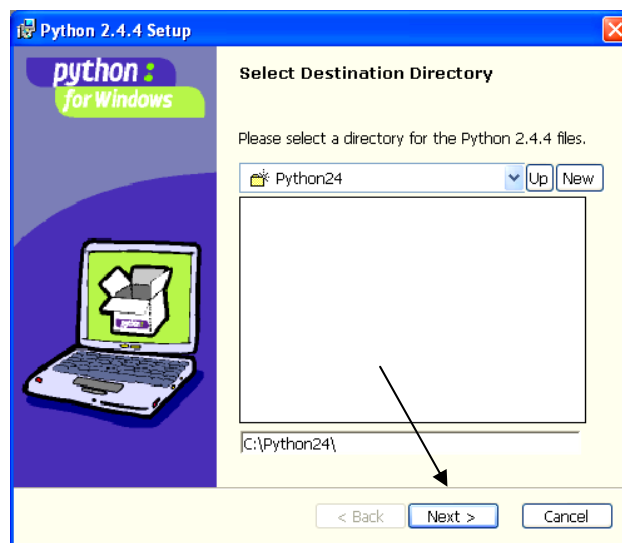

Figura 2.2 – Janela que permite seleccionar a directoria de destino

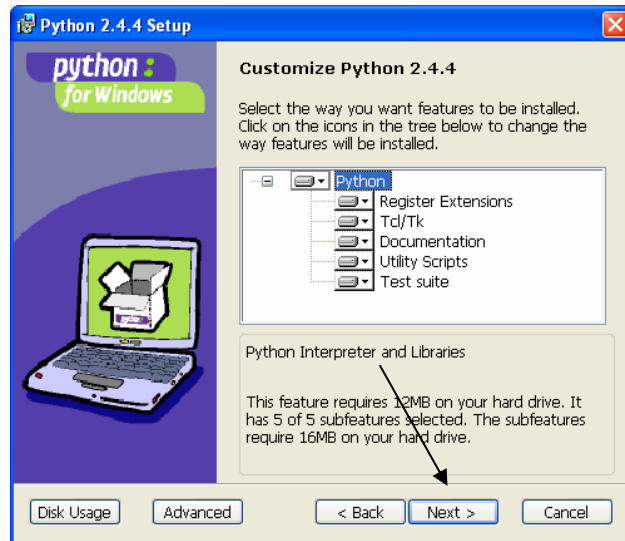

Figura 2.3 – Janela que permite personalizar a instalação

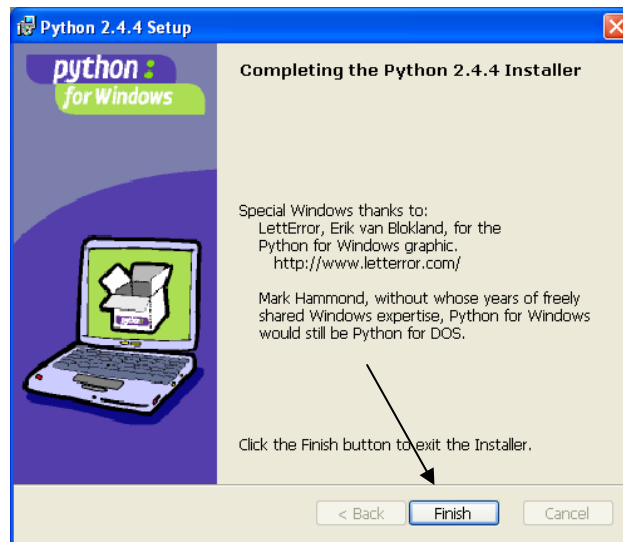

Figura 2.4 – Janela que permite terminar a instalação

3. Qt Open Source 4.1.4

Figura 3.1 – Janela de boas-vindas

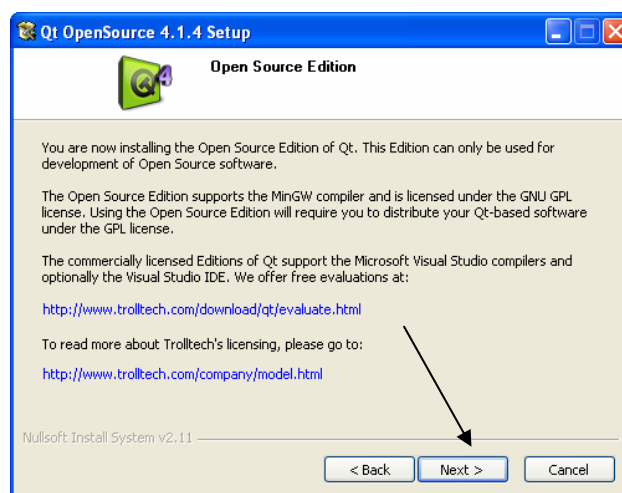

Figura 3.2 – Janela de informação sobre a edição *open-source*

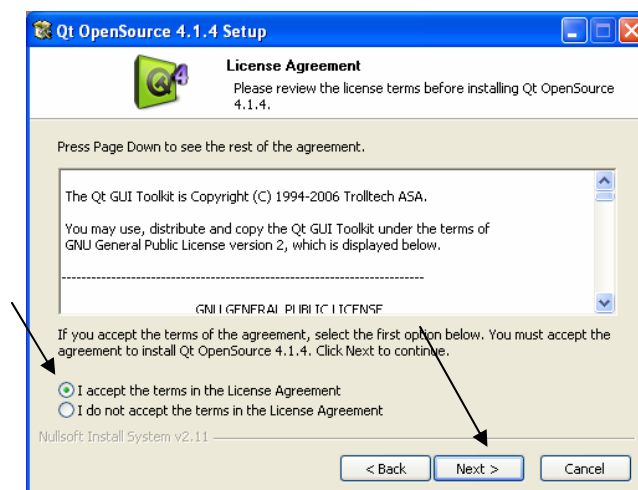

Figura 3.3 – Janela que permite aceitar os termos no acordo de licença

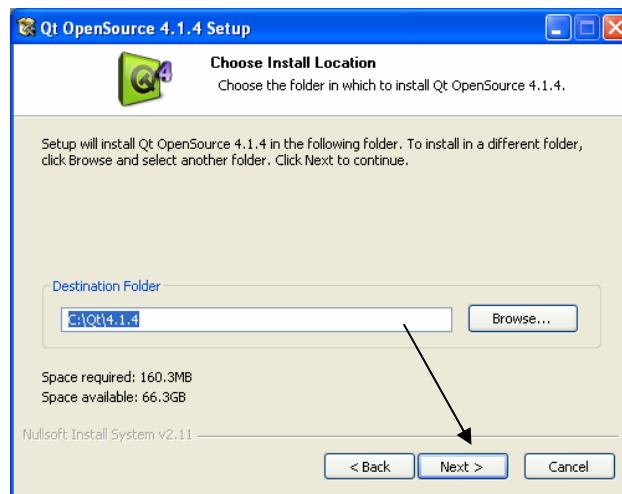

Figura 3.4 – Janela que permite seleccionar a directoria de destino

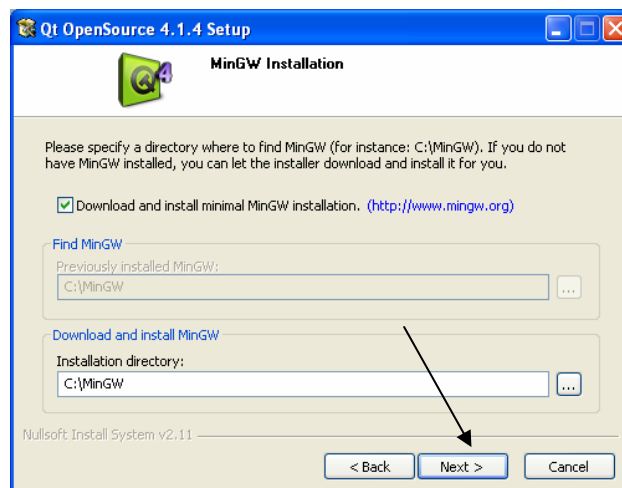

Figura 3.5 – Janela que permite requerer ao instalador o download e a instalação do MinGW

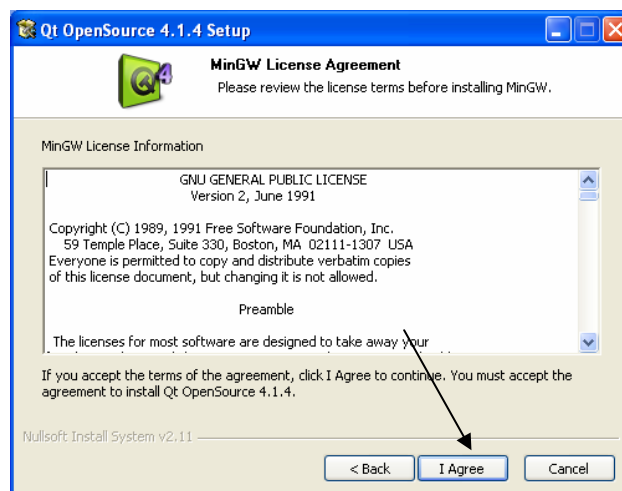

Figura 3.6 – Janela que permite aceitar o acordo de licença MinGW

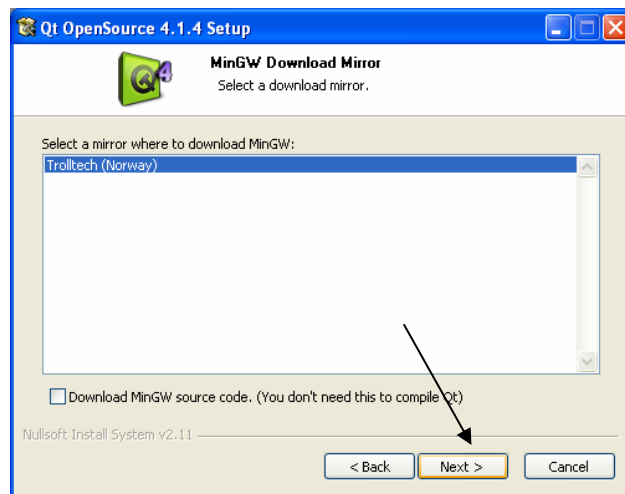

Figura 3.7 – Janela que permite seleccionar a partir de que *mirror* será feito o *download* do MinGW

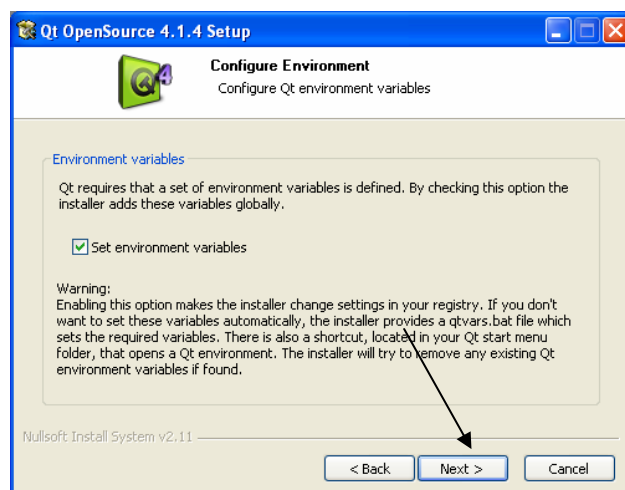

Figura 3.8 – Janela que permite configurar as variáveis de ambiente do Qt

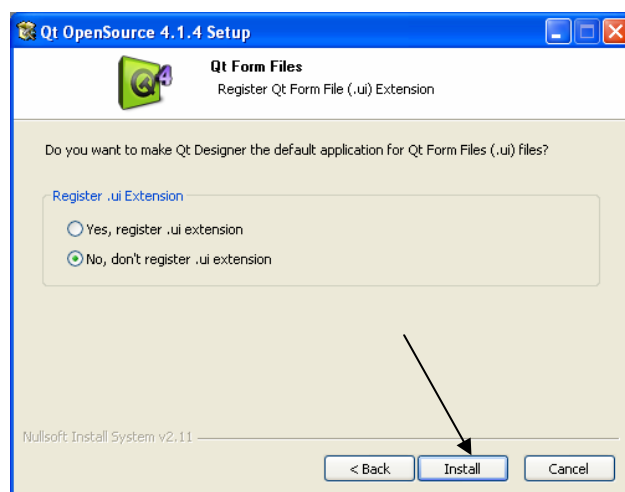

Figura 3.9 – Janela que permite associar a extensão .ui com a aplicação Qt Designer

Figura 3.10 – Janela que permite terminar a instalação

4. PyQt 4.0.1

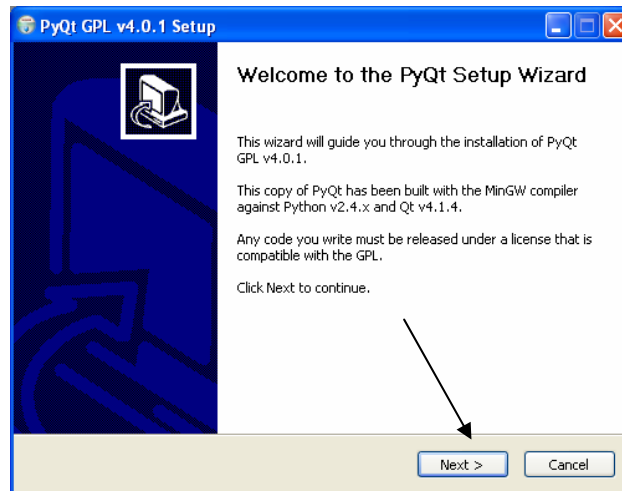

Figura 4.1 – Janela de boas-vindas

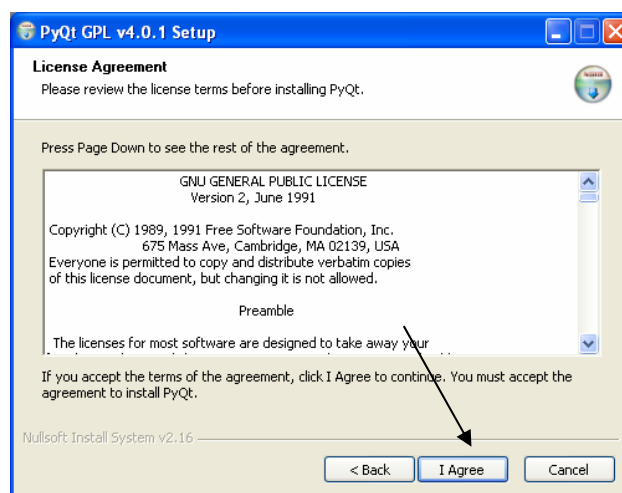

Figura 4.2 – Janela que permite aceitar o acordo de licença

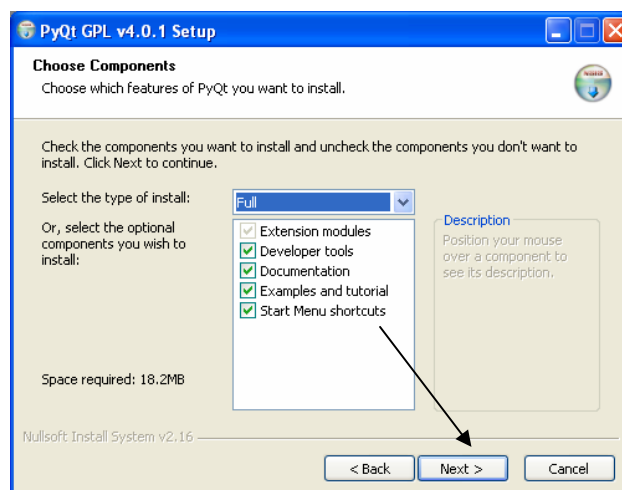

Figura 4.3 – Janela que permite escolher os componentes a instalar

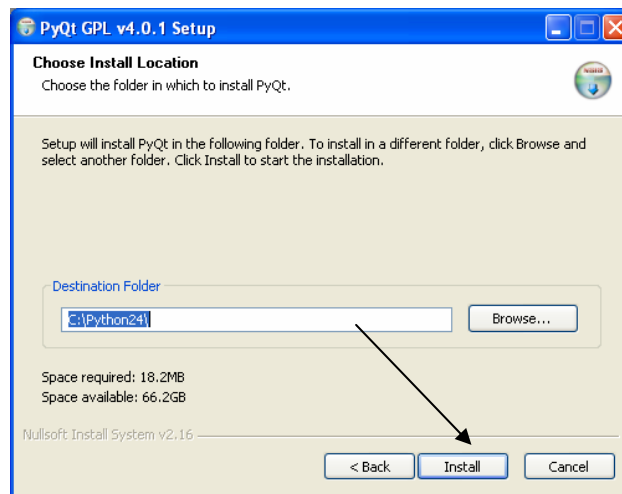

Figura 4.4 – Janela que permite definir a pasta de destino

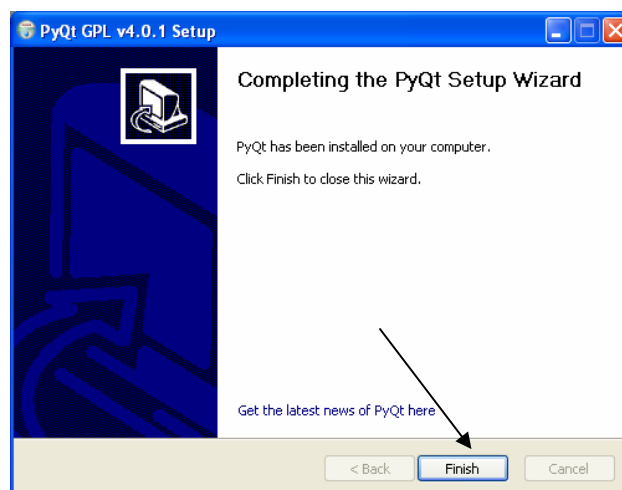

Figura 4.5 – Janela que permite terminar a instalação

5. PyYAML 3.04

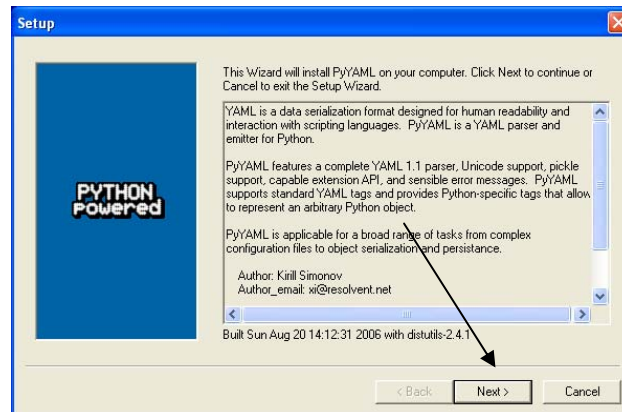

Figura 5.1 – Janela inicial da instalação

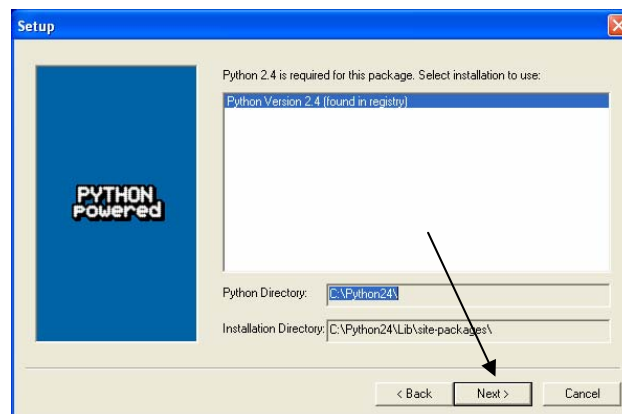

Figura 5.2 – Janela que permite seleccionar a instalação Python 2.4 a utilizar

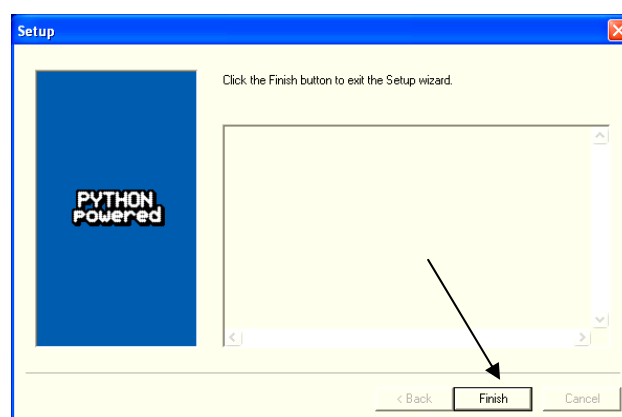

Figura 5.3 – Janela que permite terminar a instalação
